PROFILE

I am a product driven full stack web developer excited about expanding my knowledge base in the field. I have been a life-long learner and elementary educator as well as a researcher, geoscientist and humanitarian. I am passionate about using my web development skills and human centered approach in design to help people around the world access information to improve the quality of their lives.

EXPERIENCE

answerYES Consulting | Software Development Intern

June 2019 - Present Stamford, Connecticut

- Currently working on a project to redo a WordPress website for a non-profit organization helping underserved kids in the Bridgeport community
- Gaining a lot of hands on experience with WP plugins, Adobe XD, Dreamweaver, information architecture, site mapping, theme selection and design

General Assembly | Software Engineering Immersive

March 2019 - June 2019 Stamford, Connecticut

- Learned full stack web development with a variety of different technologies including HTML5, CSS3, Javascript, Google APIs, MongoDB, GitHub, etc.
- Created a number of web applications around the topics of education, innovation, travel, and community building

Rectory School | Grade 2 & 3 Lead Teacher

August 2017 - June 2018 Pomfret, Connecticut

- Instructed a mixed class of 2nd and 3rd grade students across all subject areas
- Wrote original curriculum and developed project based science lessons, activities and projects to help students connect their learning to the real world

Windham Public Schools | Substitute Math Coach and STEM Teacher

August 2015 - June 2017 Windham, Connecticut

- Worked as a math coach serving students in Grades K-5 with instructional support and providing data collection
- Substitute taught in various STEM classrooms in grades pre-K to 8

New York City Dept. of Education | Grade 4 Lead Teacher

August 2010 - June 2015 New York, New York

- Worked in a small coaching group for Literacy Coaches with Columbia Teachers College staff developers
- Served as president of the School Leadership Team and gave professional development presentations to staff

United Nations | International Strategy for Disaster Reduction

June 2008 - August 2008 Geneva, Switzerland

- Worked with an international team as an Information Management Unit Intern and attended the International Disaster and Risk Conference
- Conducted interviews with over 200 participants from a variety of backgrounds including government, academia, non-profit, industrial, etc. in order to reveal networks of people working together within the disaster community
